

EE4197.14/4198.14 Engineering Project I/II Rules and Grading

Students who are willing to complete their engineering project under supervision of Asst. Prof. Onur Cihan are expected to follow the rules below.

- There will be 14 regularly scheduled project meetings. Each group must prepare a project proposal document, 2 progress reports and a final report for the course.
- Any student who fails to attend at least seventy percent of regularly scheduled meetings (i.e., fails to comply with the “70% rule”) will receive a “DZ” grade for the course.
- The workload of EE4197 and EE4198 are equivalent to the workload of two 5 credit courses which means you are expected to study 250-300 hours for each course.
- All documents (proposal, progress reports, final report and posters) must be written in good English.
- Each submitted document will be checked for plagiarism. Any document with similarity greater than 20% will be awarded a zero grade.

Grading:

Proposal (due 2nd week)	10%
Progress Report 1 (due 6th week)	15%
Progress Report 2 (due 10th week)	15%
Final Report (due 14th week)	20%
Poster Presentation (date TBD)	40%
